We Make Recognition Easy For You

Recognizing achievement in schools, colleges and universities is a year-round effort. For the best results, it requires consistent attention to detail. That’s where The Registry can help.

We work with you to create a comprehensive recognition program that’s perfect for your institution. Our selection of custom gifts and awards is a beautifully unique way to recognize outstanding achievements and special accomplishments. Plus, we provide you with a simple system for ordering and fulfillment, backed by superior customer service.

The centerpiece of our collection is a custom designed aluminum alloy plate, cast with the name and logo of your institution. This very distinguished piece becomes a vehicle to display specific accomplishments by means of achievement medallions and/or custom engraving. Proudly made in the USA, it is available in two sizes with a variety of display options.

Since 1985, The Registry has helped hundreds of educational institutions recognize and reward excellence. We’d like the opportunity to do the same for you.
